

## **Supervisor Reflection**

- 1. Think about a time early in your career when you made a mistake (big or small).
  - a. How did you handle it?
  - b. How did your supervisor and/or colleagues handle it?
  - c. Is there anything you wish you or your supervisor/colleagues had done differently either <u>before</u> or <u>after</u> you made the mistake?

2. What is one thing you understand now that you wish you had understood when you were 16 or 17?

3. What is one time someone you know made you feel good about yourself?
